

# TABLE OF CONTENTS

Acronyms and Abbreviations Used in this Document .....	v
<b>Chapter 1 Summary</b> .....	1-1
Where is the Renton Nickel Improvement Project located? .....	1-1
What is the Renton Nickel Improvement Project? .....	1-1
What benefits will the project provide? .....	1-2
When will construction begin and how long will it take?.....	1-2
How will the project affect the built environment? .....	1-3
How will the project affect the natural environment? .....	1-5
<b>Chapter 2 Purpose and Need</b> .....	2-1
What is the I-405 Corridor Program and how does the Renton Nickel Improvement Project relate to it? .....	2-1
Why do we need the Renton Nickel Improvement Project? .....	2-1
What happens if the Renton Nickel Improvement Project is not built? .....	2-2
What other improvements are being implemented as part of the Puget Sound Region's transportation planning process? .....	2-2
<b>Chapter 3 Developing the Alternatives</b> .....	3-1
How did we advance from the I-405 Corridor Program to the Renton Nickel Improvement Project? .....	3-1
How was the Renton Nickel Improvement Project developed? .....	3-2
What alternatives does this environmental assessment evaluate? .....	3-2
How has the public been involved? .....	3-3
How have government agencies been involved? .....	3-5
How has WSDOT involved tribal governments? .....	3-6
<b>Chapter 4 Project Description</b> .....	4-1
What is the Renton Nickel Improvement Project? .....	4-1
How will stormwater from the project be managed? .....	4-12
What environmental issues influenced the project design and what was done to avoid and minimize project effects? .....	4-13
What is planned for wetland and stream mitigation? .....	4-16
What benefits will the project provide? .....	4-16
How will the project incorporate community design preferences? .....	4-17
How will the project be constructed? .....	4-17
<b>Chapter 5 The Environment</b> .....	5-1
How was environmental information used to improve the project? .....	5-2
How were potential effects evaluated? .....	5-2
How will the project affect traffic? .....	5-4
What environmental federal, state, and local laws and regulations do we refer to in the Renton Nickel Improvement Project? .....	5-5
5.1 Noise and Vibration .....	5-11
How noisy is the project area?.....	5-11
How will project construction affect noise? .....	5-12

How will the completed project affect noise levels?.....	5-12
What measures are proposed to minimize noise effects during construction?.....	5-12
What measures are proposed to minimize noise effects during operation? .....	5-19
5.2 Wetlands .....	5-21
What wetlands are located in the study area?.....	5-21
How will project construction temporarily affect wetlands?.....	5-21
How will wetlands be permanently affected by the project? .....	5-22
What measures are proposed to avoid, minimize, and mitigate effects to wetlands? .....	5-25
5.3 Water and Aquatic Resources.....	5-27
What water resources are found in the project area?.....	5-27
What fish species live in the project area? .....	5-29
How are water resources currently managed in the project area? .....	5-31
How will project construction affect water resources and fish? .....	5-31
How will project operation affect water resources and fish? .....	5-33
What measures are proposed to avoid or minimize effects on water resources during construction? .....	5-36
What measures are proposed to avoid or minimize effects on water resources during operation?.....	5-36
How will the project compensate for unavoidable negative effects to fish or aquatic resources?.....	5-37
5.4 Public Services and Utilities .....	5-39
What are the public services and utilities in the study area? .....	5-39
How will project construction affect public services and utilities? .....	5-40
How will the completed project affect public services and utilities? .....	5-42
What measures are proposed to minimize effects on public services and utilities during construction? .....	5-43
What measures are proposed to minimize effects on public services and utilities during operation? .....	5-43
5.5 Historic, Cultural, and Archaeological, and Section 4(f) Evaluation.....	5-45
How will the project affect historic, cultural, and archaeological resources? .....	5-45
What is Section 4(f)? .....	5-46
What constitutes a “use” of Section 4(f) resources? .....	5-47
What Section 4(f) resources might be affected by the project? .....	5-47
What did we conclude about the project’s use of Section 4(f) resources? .....	5-49
5.6 Visual Quality .....	5-51
What is the current visual character of the study area?.....	5-51
How will project construction affect visual quality? .....	5-52
How will the completed project affect visual quality?.....	5-52
Will the project create new sources of light, shadow, or glare?.....	5-54
What measures are proposed to minimize effects on visual quality during construction? .....	5-54
What measures are proposed to minimize effects on visual quality during operation? .....	5-55
5.7 Soils, Geology, and Groundwater .....	5-57
What is the geology of the study area? .....	5-57
What are groundwater resources in the study area?.....	5-60
How will project construction affect soils, geology, and groundwater? .....	5-61

How will the completed project affect soils, geology, and groundwater? .....	5-62
What measures are proposed to minimize effects on soils, geology, and groundwater during construction? .....	5-62
<b>Chapter 6 List of Preparers .....</b>	<b>6-1</b>
<b>Chapter 7 References.....</b>	<b>7-1</b>
<b>Appendices</b>	
A – Glossary	
B – Avoidance, Minimization, and Mitigation Measures	
C – Agency and Tribal Correspondence	
D – Project Benefits	
E – Mobile Source Air Toxics	
The following appendices are included on CD only, which are located at the back of this document:	
F – Air Quality Discipline Report	
G – Cultural Resources Discipline Report	
H – Cumulative Effects Discipline Report	
I – Economics Discipline Report	
J – Energy Discipline Report	
K – Environmental Justice Discipline Report	
L – Fisheries and Aquatic Resources Discipline Report	
M – Floodplains Discipline Report	
N – Hazardous Materials Discipline Report	
O – Land Use Patterns Discipline Report	
P – Land Use Plans and Policies Discipline Report	
Q – Noise and Vibration Discipline Report	
R – Public Services and Utilities Discipline Report	
S – Section 4(f) Discipline Report	
T – Social Discipline Report	
U – Soils, Geology, and Groundwater	
V – Surface Water and Water Quality Discipline Report	
W – Transportation Discipline Report	
X – Upland Vegetation and Wildlife Discipline Report	
Y – Visual Quality Discipline Report	
Z – Wetlands Discipline Report	

## EXHIBITS

---

Exhibit 1-1. I-405 Corridor and Renton Nickel Improvement Project Study Area.....	1-1
Exhibit 2-1. I-405 Corridor and Renton Nickel Improvement Project Study Area.....	2-1
Exhibit 4-1. Project Vicinity Map .....	4-1
Exhibit 4-2. Project Overview Section 1 .....	4-3
Exhibit 4-3. Project Overview Section 2 .....	4-4
Exhibit 4-4. Project Overview Section 3 .....	4-5
Exhibit 4-5. Project Overview Section 4 .....	4-6
Exhibit 4-6. Project Overview Section 5 .....	4-7
Exhibit 4-7. Project Overview Section 6 .....	4-8
Exhibit 4-8. Project Overview Section 7 .....	4-9
Exhibit 4-9. Project Overview Section 8 .....	4-10
Exhibit 4-10. Location of Springbrook Creek Wetland and Habitat Mitigation Bank.....	4-16
Exhibit 5-1. Regulatory Framework.....	5-5
Exhibit 5-2. Predicted Noise Levels in 2030 with Project Built (sheet 1 of 6) .....	5-13
Exhibit 5-3. Predicted Noise Levels in 2030 with Project Built (sheet 2 of 6) .....	5-14
Exhibit 5-4. Predicted Noise Levels in 2030 with Project Built (sheet 3 of 6) .....	5-15
Exhibit 5-5. Predicted Noise Levels in 2030 with Project Built (sheet 4 of 6) .....	5-16
Exhibit 5-6. Predicted Noise Levels in 2030 with Project Built (sheet 5 of 6) .....	5-17
Exhibit 5-7. Predicted Noise Levels in 2030 with Project Built (sheet 6 of 6) .....	5-18
Exhibit 5-8. Effect of Noise Wall Along Northbound I-405 Right-of-way .....	5-19
Exhibit 5-9. Wetland Effects (from I-405/I-5 Interchange to I-405/SR 167 Interchange) .....	5-23
Exhibit 5-10. Wetland Effects (I-405/SR 167 Interchange to I-405/SR 169 Interchange) .....	5-24
Exhibit 5-11. Surface Waterbodies in the Study Area. None of these waterbodies will be affected by this project....	5-28
Exhibit 5-12. Floodplains within Renton Nickel Improvement Project Study Area .....	5-30
Exhibit 5-13. Stormwater Flow Control Facility Locations .....	5-34
Exhibit 5-14. Existing Public Services in the Renton and Tukwila Area .....	5-40
Exhibit 5-15. Park and Recreation Areas and Historic Properties and Section 4(f) Criteria .....	5-48
Exhibit 5-16. Resources Identified in the Study Area.....	5-49
Exhibit 5-17. Liquefaction Potential in the Study Area. ....	5-59
Exhibit 5-18. Boundaries of the Cedar Valley Sole-Source Aquifer in the vicinity of the Study Area .....	5-60

# Acronyms and Abbreviations Used in this Document

---

a.m.	ante meridiem
BMP	best management practices
BNSF	Burlington Northern Santa Fe Railway Company
CFR	Code of Federal Regulations
Corps	U.S. Army Corps of Engineers
CSS	Context Sensitive Solutions
dba	A-weighted decibels
DOT	U.S. Department of Transportation
EA	Environmental Assessment
Ecology	Washington State Department of Ecology
EEl	Early Environmental Investments
EIS	Environmental Impact Statement
EPA	U.S. Environmental Protection Agency
ESA	U.S. Endangered Species Act
FEMA	Federal Emergency Management Agency
FHWA	Federal Highway Administration
FONSI	Finding of No Significant Impact
FTA	Federal Transit Authority
GMA	Growth Management Act
HOV	high-occupancy vehicle
HRM	Highway Runoff Manual
I-405	Interstate 405
I-90	Interstate 90
L <sub>eq</sub>	Equivalent A-weighted sound level
LWD	large woody debris
MAPT	Multi-agency Permitting Team
MP	milepost
mph	miles per hour
NAC	Noise Abatement Criteria
NEPA	National Environmental Policy Act

NMFS	National Marine Fisheries Service
NPDES	National Pollutant Discharge Elimination System
OHWM	ordinary high water mark
OSHA	Occupational Safety and Health Act
p.m.	post meridiem
PSE	Puget Sound Energy
RCP	Roadside Classification Plan
RCW	Revised Code of Washington
RMC	Renton Municipal Code
ROD	Record-of-Decision
ROW	right-of-way
SEPA	State Environmental Policy Act
Sound Transit	Central Puget Sound Regional Transit Authority
SPCC	Spill Prevention, Control, and Countermeasures Plan
SR	State Route
TESC Plan	Temporary Erosion and Sediment Control Plan
TMC	Tukwila Municipal Code
TMP	Traffic Management Plan
USC	United States Code
USFWS	U.S. Fish and Wildlife Service
WAC	Washington Administrative Code
WDFW	Washington State Department of Fish & Wildlife
WSDOT	Washington State Department of Transportation
